VECTRA

Looking for the ↻ in NDR?

SIEM/UEBA

Endpoint Detection and Response

SOC Visibility Triad

Network Detection and Response

Once you've detected a threat

you need to respond

**Most NDR solutions noisily broadcast indiscriminate things to do.**

At Vectra

Response = Intelligent Enforcement

Enforce based on attacker behavior

NOT by thousands of anomalies that you have to sort through

Enforce by account

NOT by shutting down the entire network

Know what matters.
Enforce what matters.
