

#### What is CloudGenix

CloudGenix is a software-defined WAN (SD-WAN) solution that enables companies to build a global WAN based on business policies for application performance, compliance, and security, across all sites and users.

### How does CloudGenix Work

CloudGenix SD-WAN with AppFabric connects your sites securely with application awareness to seamlessly integrate cloud, take advantage of broadband Internet, align WAN management with business priority and reduce remote office hardware and operational costs.

# **Top 3 CloudGenix Benefits**
