- Remote management - XMS Cloud

# ClickShare Bar Pro highlights

Support for dual screen*

With dual screen support,
you can improve meeting equity
by keeping remote participants on screen

Speaker framing

Focus on the current speaker
with advanced camera AI

Touch screen support

Enhance your in-room collaboration
with touch back, annotation
and blackboarding

Wired room dock*
for conferencing

While wireless conferencing delivers a simple and
cable free user experience there are some
reservations to purely rely on the wireless approach

Compatible with input dongle

HDMI   USB

Enable the use of wired room dock
for devices that do not support
USB-C DP Alt mode

Flexible room set-ups*

HDMI OUT   USB

HDMI

The CB Pro switches automatically to BYOM mode
when detecting a connection via the button or the
app. Only works with compute based room set-ups.

* Available in future release

ClickShare Bar Core
