

Increase WildFire with Your Install Base

Effective February 14, 2022 - Jan 31, 2023

A simple, global, price-based acquisition program to drive an increase in WildFire with your install base. Provides financial incentive to increase customer security and stop the latest threats with WildFire advanced malware analysis.

Purchase a standard 3- or 5-year WildFire license and get an additional 1-year added at no additional cost:

- Global expand business for WildFire
- Expand opportunity adding WildFire when tied to a maintenance renewal opportunity/quote for non-WildFire NGFWs

Quick Start Service (Recommended addition)

- *Must be created and closed between effective dates and not exist prior.*
- *Recommended to include at least one Quick Start service*

QuickStart Service inclusion will ease deployment, increase stickiness, improve adoption rates and drive renewals in following years. For WF sales may use:

- *PAN-CONSULT-NGFW-QS-THREAT*
