

SECURING THE DIGITAL SUPPLY CHAIN

Third-Party Risk Management

Mitigate risk. Enable the business. Reduce exposure.

Overcoming New Challenges

Waves of change are disrupting cybersecurity stability and increasing cyber risk uncertainty. But CISOs and risk leaders have an opportunity to navigate that uncertainty with confidence. To manage and mitigate cyber risk from third parties effectively and efficiently. To assess and onboard new vendors while managing changing risk throughout the entirety of the relationship. And to identify and respond to critical exposure and major security events in the ecosystem.

Manage Third-Party Risk End-to-End

Bitsight TPRM is an end-to-end solution that allows CISOs and risk leaders to excel in their third-party risk programs. Risk leaders turn to Bitsight to efficiently assess and onboard vendors who match their risk tolerance, mitigate risk throughout the vendor lifecycle, accelerate outreach to third parties during majority security events, and scale the team's capacity with managed services. Bitsight TPRM serves the entire vendor relationship.

“Bitsight opens conversations with our vendors’ security teams. By informing them about risks they may not know about, we set ourselves up for successful business relationships from the get-go.”

Ambrose Neville,
Head of Information Security at the University of Surrey

Benefits

1
Assess new and existing vendor risk

2
Continuously monitor third and fourth parties

3
Effectively respond to major security events

4
Scale team capacity to match business needs

Risk

Onboard & assess third-party vendors to empower business growth

Performance

Gain visibility into your vendor network to improve ecosystem security posture

Exposure

Prioritize, initiate, and track vendor outreach during major security events

Vendor Risk Management

Accelerate onboarding and assessment processes to enable company growth. With Bitsight Vendor Risk Management (VRM), cyber risk leaders expedite assessments more efficiently with automated workflows, verifiable data, and a growing vendor network. Reduce vendor risk with more confidence.

Continuous Monitoring

Address ongoing risk in the digital ecosystem through the life of third-party relationships. Bitsight Continuous Monitoring empowers organizations to manage and surface ongoing risk through continuous visibility into vendor security controls, comprehensive alerting for quicker mitigation efforts, and automatic discovery of fourth-party concentrated risk. Take action as risk arises.

Exposure Management

Respond to zero-day events with speed and precision. Bitsight Vulnerability Detection & Response enables risk leaders to prioritize, initiate, and track vendor exposure. Leverage scalable templated questionnaires, tailored exposure evidence, and traceable reporting to reduce risk during critical moments.

Managed Services

Resource-constrained? Need help getting a TPRM program up and running, or improving it? Bitsight Advisory Services provides a managed service across third-party programs to manage assessments, conduct vendor outreach, support remediation plans, and improve cyber risk operations without disrupting the business.

Bitsight is a cyber risk management leader transforming how companies manage exposure, performance, and risk for themselves and their third parties. Companies rely on Bitsight to prioritize their cybersecurity investments, build greater trust within their ecosystem, and reduce their chances of financial loss. Built on over a decade of technological innovation, its integrated solutions deliver value across enterprise security performance, digital supply chains, cyber insurance, and data analysis.
