

MITIGATING VULNERABILITIES ACROSS THE SUPPLY CHAIN

Third-Party Vulnerability Detection & Response

Take action on zero days and major security events with speed and precision.

Bitsight Third-Party Vulnerability Detection & Response empowers cyber risk leaders to assess and mitigate vendor exposure during major security events — quickly and effectively.

Prioritize, scale, and track vendor outreach more efficiently with built-in questionnaires

Provide your third-parties with exposure evidence to remediate risk to their business — and yours

Communicate remediation progress to the board with an audit trail of vendor responses updated in real time

Access critical views of vulnerabilities affecting your vendor portfolio to inform action plans

“Bitsight immediately shone a light on hidden risk in our own vendor portfolio, particularly critical third parties in the technology sector.”

James Arden,
Advisory and Assurance Manager at RBC Brewin Dolphin

Benefits

- 1** Remediate risk and exposure more quickly
- 2** Adhere to growing regulatory pressure
- 3** Build stronger vendor relationships

Bitsight is a cyber risk management leader transforming how companies manage exposure, performance, and risk for themselves and their third parties. Companies rely on Bitsight to prioritize their cybersecurity investments, build greater trust within their ecosystem, and reduce their chances of financial loss. Built on over a decade of technological innovation, its integrated solutions deliver value across enterprise security performance, digital supply chains, cyber insurance, and data analysis.
