Our Global Logistics projects are managed by dedicated teams

From project quoting...

-  CPT – Carriage Paid To
-  DAP –Delivered at Place
-  DDP-Delivered Duty Paid
-  DDP+IOR (Delivered Duty Paid + importer of record service)

...to execution

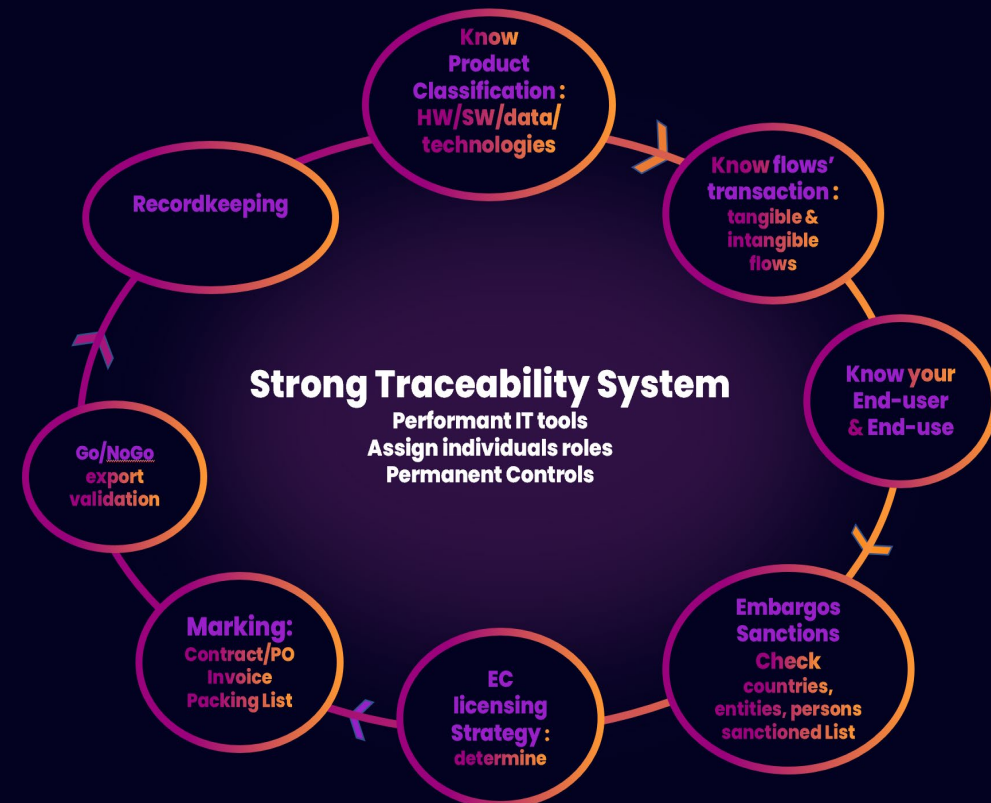

The screenshot displays the MyTower web application interface, which is used for tracking and managing logistics projects. The main section is a table titled 'Track & Trace' with columns for Transport ref, Vendor, Customer reference, Incoterms, Dist country, N° sub/bol, Creation date, Last milestone updated, Transport status per Unit, SERIAL NUMBER, Internal Progress, and Date of the last entry (Internal progress). The table lists various transport units with their respective statuses and progress. On the right side, there is a 'My Tower' sidebar with a 'Tracking Information' section showing details for a specific transport unit, including a map and a 'DELIVERY NOTE' section with a signature and date.

Export Control Compliance is our priority

- A central team in charge to validate & scan all export transaction
 - Policy and Procedures deployment
 - Central administration of all information relevant for export controls
 - End-user Check
 - License management
 - US re export check
 - Export Control classification
 - Denied Party Screening
 - Complete audit trail
 - Standard reporting & data analytics

- Robust Local Control
