

HAVE YOUR SECURITY SEWN UP WITH FORTINET®

AN EXTRA LAYER OF PROTECTION

With FortiGuard Labs' threat intelligence at your fingertips

FortiGuard Labs consists of more than **200 EXPERT** researchers and analysts around the world, all working to discover and study breaking threats including malware, botnets, mobile, zero-day vulnerabilities and malicious code.

When it comes to staying ahead of threats FortiGuard Labs definitely have their finger **ON THE BUTTON!**

24,000 botnet C&C attempts thwarted per minute

150,000 malicious website accesses blocked per minute

4,400,000 Network intrusion attempts resisted per minute

Working with world class, in-house developed tools and technology to discover and study breaking threats, researchers update FortiGuard security services to protect against threats.

Service analysts study malicious code and develop mitigation signatures, Global security protection engines are continually updated to combat evolving threats through FortiGuard services.

100 intrusion prevention rules per week

91,000 malware programs neutralised per minute

450,000 hours of Threat Research globally per year

YOUR SECURITY IS ZIPPED UP! FortiGuard Labs use data collected from more than **3 MILLION** sensors around the globe to protect over **340,000** customers daily!

WITH FORTINET FABRIC YOUR SECURITY IS COVERED FROM ENDPOINT TO THE CLOUD

A stitch in time...

Organisations today require a **FAST AND SECURE** network to be successful.

Whether or not you have the right protection, **IMMEDIATE RESPONSE** to threats throughout your network can determine if your business runs smoothly or is the victim of a security breach.

At the cutting edge of network security, Fortinet's unique architectural approach unifies the security technologies deployed across the digital network into a **SINGLE SECURITY SYSTEM** designed as an integrated and collaborative security fabric.

Which means we are the only company that can truly provide you with a powerful, **INTEGRATED END-TO-END** security solution across the entire attack surface.

With our broad range of security products, we can offer a truly **made to measure solution**

To enable an effective defence, the data and security elements across all of your various environments must be visible, well-integrated and able to share intelligence.

The **FORTINET SECURITY FABRIC** gives you control, integration, and easy management of security across your entire organisation, from IoT to the cloud.

MORE REASONS FORTINET COULD BE YOUR PERFECT FIT

UNPARALLELED THIRD PARTY CERTIFICATION. Real-world testing is the best way to evaluate the effectiveness and speed of technology. We routinely submit our solutions for independent tests so that you can verify our claims for yourself.

NSS Labs, Gartner, ICSA, AV Comparatives, Virus Bulletin and other independent testing organisations have consistently validated the effectiveness of Fortinet solutions.
