TRAINING HANDBOOK

INTRODUCTION

Exclusive Networks offers the highest standard of technical education on products and solutions in its portfolio. All courses are delivered by vendor accredited trainers with real world experience and practical insight, providing attendees with tangible capability as well as study book theory. Courses are designed to equip engineers with the skills needed to understand, configure, support, troubleshoot and manage products in their care. Knowledge transfer through the training programme helps both business partners and their customers become more effective in supporting/managing solutions. Exclusive Networks' high levels of accreditation and training credentials speak for themselves, through authorised training endorsements from the vendors in Exclusive Networks' product portfolio.

Exclusive Networks UK operates authorised training centres for:

Accredited training can be provided in accordance with the vendor courseware either from Exclusive Networks' training suites, at the customer's premises or a suitable location for all parties. Alternatively, bespoke training courses using selected material from the vendor courseware can be provided where necessary. Both accredited training and bespoke training include instructorled training and hands-on labs. Knowledge transfer sessions are also available which provide instruction and demonstration of customer selected topics.*

All of Exclusive Networks' trainers adopt a 'hands-on' approach, which means they teach course content with real-world practical experience, rather than simply facilitate how to achieve accreditation.

*Knowledge transfer sessions do not include courseware or hands-on labs.

COURSE NAME: FortiManager

DURATION: 2 Days   **PRODUCT VERSION:** FortiManager 6.0

DESCRIPTION

The FortiManager course combines instructor-led training and interactive labs to build a solid understanding of the fundamentals of using FortiManager for centralised network administration of many FortiGate devices.

Topics that are covered include deployment strategies using single or multiple ADOMs, workspaces and workflow mode, provisioning templates and scripts, policy packages, dynamic objects, centralised IPSec VPN management, revision history, shared objects, and using the FortiManager as a local FortiGuard Distribution server for managed firewalls.

TARGET AUDIENCE

The FortiManager course is intended for networking and security professionals who are responsible for day-to-day management of many FortiGate devices via the FortiManager platform. This includes network managers, and administrators, however installers, sales engineers, systems engineers, professional services engineers (presales and post sales) and technical support professionals can also benefit from this course.

PRE-REQUISITE(S)

- Familiarity with all topics presented in the FortiGate Security and FortiGate Infrastructure courses
- Knowledge of firewalling concepts in an IPv4 network
- Basic understanding of network management system

CERTIFICATION

The FortiManager course combined with the FortiAnalyzer course are the recommended training to prepare for the NSE 5 exam to achieve Network Security Expert status.

COURSE OUTLINE

Day 1
- Introduction and Initial Configuration
- Administration and Management
- Device Registration
- Device Level Configuration and Installation

Day 2
- Policy and Objects
- Manager Panes
- Diagnostics and Troubleshooting
- Advanced Configuration
