TRAINING HANDBOOK

INTRODUCTION

Exclusive Networks offers the highest standard of technical education on products and solutions in its portfolio. All courses are delivered by vendor accredited trainers with real world experience and practical insight, providing attendees with tangible capability as well as study book theory. Courses are designed to equip engineers with the skills needed to understand, configure, support, troubleshoot and manage products in their care. Knowledge transfer through the training programme helps both business partners and their customers become more effective in supporting/managing solutions. Exclusive Networks' high levels of accreditation and training credentials speak for themselves, through authorised training endorsements from the vendors in Exclusive Networks' product portfolio.

Exclusive Networks UK operates authorised training centres for:

Accredited training can be provided in accordance with the vendor courseware either from Exclusive Networks' training suites, at the customer's premises or a suitable location for all parties. Alternatively, bespoke training courses using selected material from the vendor courseware can be provided where necessary. Both accredited training and bespoke training include instructorled training and hands-on labs. Knowledge transfer sessions are also available which provide instruction and demonstration of customer selected topics.*

All of Exclusive Networks' trainers adopt a 'hands-on' approach, which means they teach course content with real-world practical experience, rather than simply facilitate how to achieve accreditation.

*Knowledge transfer sessions do not include courseware or hands-on labs.

COURSE NAME: Prisma Access SASE Security: Design and Operation (EDU-318)

DURATION: 2 Days

PRODUCT VERSION: Prisma Access Secure Access Service Edge (SASE)

DESCRIPTION

The Prisma Access SASE Security: Design and Operation (EDU-318) course describes Prisma Access Secure Access Service Edge (SASE) and how it helps organisations embrace cloud and mobility by providing network and network security services from the cloud.

TARGET AUDIENCE

This course is intended for people in the fields of public cloud security and cybersecurity, or for anyone who wants to learn how to secure remote networks and mobile users.

- Security Engineers
- Security Administrators
- Security Operations Specialists
- Security Analysts
- Network Engineers.

PRE-REQUISITE(S)

The following is required when attending the course:

- Participants should have a basic knowledge of cloud computing and the public cloud.
- Participants also must have experience with networking concepts including routing, switching, and IP addressing.
- Participants must have attended the EDU-210- Firewall Essentials and the EDU-220 – Managing Firewalls at Scale courses

CERTIFICATION

Successful completion of this two-day, instructor-led course will help enhance your understanding of how to better protect your applications, remote networks, and mobile users using a SASE implementation. You will get detailed instruction on configuring, managing, and troubleshooting Prisma Access in a production environment.

COURSE OUTLINE

Day 1

- Prisma Access Overview
- Planning and Design
- Activate and Configure
- Security Processing Nodes

Day 2

- Panorama Operations for Prisma Access
- Remote Networks
- Mobile Users
- Tune, Monitor, and Troubleshoot
- Manage Multiple Tenants
- Next Steps

****Wrap in: Professional Service Quick Start from Exclusive Networks****

Exclusive Networks will guide you through the design & deployment of Prisma Access in your environment for up to 1000 remote users, to safely enable remote networks & mobile users in the cloud. This quick start service expedites onboarding activities & shortens your time to value while following best practices.
