Email EXN TAC for non-urgent P3 & P4 issues

Email: 24X7@Exclusive-Networks.com

For new issues please provide the following:

- > The serial/contact number for the affected devices – this is needed to validate support entitlement.
- > Any results of troubleshooting performed as well as the details outlined below.
- > Contact details of an engineer with access to the device/system
- > Contact name
- > Contact phone number
- > Contact email
- > Summary of the incident
- > Priority of the incident
- > Current running version
- > Recent changes to the environment
- > Description of topology
- > Symptoms
- > Steps to reproduce the incident.
- > Location of hardware
- > Data/files collected.
- > Your EXN TAC case number (6–digit number starting with VS)
- > Any additional details about the case raised since last contacting EXN TAC

For Existing Issues:

- > Your EXN TAC case number (6–digit number starting with VS)
- > Any additional details about the case raised since last contacting EXN TAC

PRIORITY DEFINITIONS

EXN TAC works to 4 levels of priority. Each of these will determine the SLA on the initial response as well as our target follow-up times for the duration of the support case.

Priority 1	CRITICAL	Product/service is down and critically affecting the customer production environment.
Priority 2	HIGH	The primary unit has failed, or the product/service is impaired. The production environment is up but impacted or lacks resiliency.
Priority 3	MEDIUM	A product function has failed, and the production environment is degraded or not affected. Non-critical business applications are unreachable.
Priority 4	LOW	General assistance that includes features, information, documentation, how-to and enhancement requests.
