# 1. Partner Portal Registration

To become part of the SentinelOne channel, you must register on the manufacturer's **Partner Portal**.

If you are an MSSP partner through Exclusive On Demand, you must register through this **link**.

## Partner Application

Begin by entering your company email address. This must be a corporate domain address and cannot be any public domain (i.e. gmail.com, outlook.com, etc).

### Email

Company Email

If the company is already registered the SentinelOne system will detect it. If not, you will need to fill out the form fields of an unregistered account.

## Contact Information

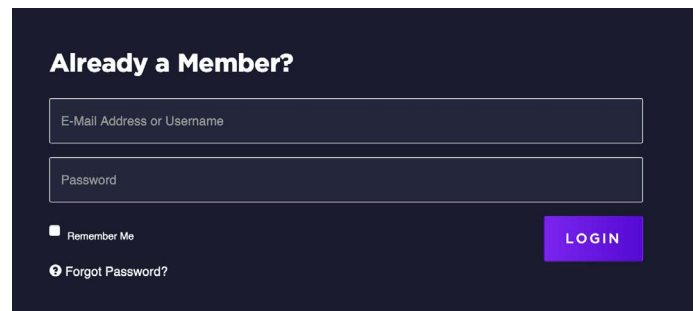

Please provide your contact details below.

* First Name <input type="text"/>	* Last Name <input type="text"/>
* Phone <input type="text"/>	* Email <input type="text" value="isobel@studictwo-creative.co.uk"/>
Title <input type="text"/>	
* Address <input type="text"/>	Address 2 <input type="text"/>
* Country <input type="text" value="- Select One -"/>	
* City <input type="text"/>	Postal Code <input type="text"/>

## Company Information

Please provide your company's details below.

Once registration in the Partner Portal is completed and approved, you can access it with your email and password.

## 2. Training and Certification

The partner will make every effort to meet the annual training and certification requirements for both the sales team and the technical team, as indicated in the Program Requirements table.

As part of these requirements, a single person can hold multiple certification levels (i.e., Sales and Technical). All training and certification plans can be found on the **SentinelOne Partner Portal**.

If a person who obtains a certification leaves the company and joins another, the certification will be eligible for transfer for six months.

The company that lost the certification will have six months to replace it, while the company that obtained the certification will only be allowed to maintain the certification for 6 months and will be required to renew it after that period.

\*Can also be achieved by accrediting > 50% of population at Reseller.

## 2.1 Access to Certifications within the Partner Portal

You will find the Partner University tab, which has two sections: Training and Enablement and Partner University Log in.

## 2.2 Required Certifications

The mandatory sales accreditations are as follows:

- **Partners: SentinelOne Sales Fundamentals**
- **Partners: SentinelOne Sales Accreditation Applied**

The mandatory technical accreditations are as follows:

- **Partners: SentinelOne Pre-Sales/ Tech Accreditation Fundamentals**
- **Partners: SentinelOne Pre-Sales/ Tech Accreditation Applied**
- **Partners: SentinelOne Pre-Sales/ Tech Accreditation Proficient**

## 2.3 Recommended Additional Certifications

SentinelOne offers its partners other certifications that, although not mandatory, are highly recommended to achieve expertise in their solutions. Four main ones stand out:

- **Getting Started Learning Path** (\*Prerequisite to access the following)
- **Administrator Learning Path**
- **Incident Response Learning Path**
- **Threat Hunting Learning Path Accreditation Proficient**

## 2.4 Compliance Portal: Reseller Interface

Through the Partner Portal, SentinelOne also provides a Compliance Portal, where you can check the status of the partnership and certifications.

This portal offers updated reports that will give you visibility on your transactions throughout the year and the certifications obtained by different members of the company. It will also clearly indicate what requirements are missing for you to progress to the next level of partnership.

Not all members of a company will have access to the Compliance Hub. If you need access and do not have it yet, please contact Exclusive so that we can request it from the manufacturer.

## 3. Opportunity Registration

SentinelOne protects opportunities that come through its partners with better discounts. To do this, it is necessary to follow the specified procedure and register the opportunity in your Partner Portal by filling out the required fields.

Once done, you will receive an email informing you of the Deal Registration status. If it is not correctly filled out, it will also be indicated in the email sent.

Once the Deal Registration is correctly created, we recommend that you contact Exclusive Networks to expedite the preparation and submission process of the proposal.

## 4. Demo to End Customer: NFR and Partner Demo Tool Kit

SentinelOne has prepared a Demo Kit for partners, in order to create a easily accessible demonstration environment with the latest tools. Everything is included in one package, and installation and updates are completely automatic.

This kit is completely free and you can find it in the partner portal by going to:

[Technical > Partner Demo Tool Kit](#)

or by entering this link [Partner Demo Toolkit](#) (sentinelone.com)

In this section, you will find the system requirements for installing the Demo Tool Kit, as well as downloadable resources and instructions for installation. To be able to use the Demo Tool Kit, you will need to have an active NFR. If you do not have an active NFR, make sure you have completed the three technical certifications (*see 2.2 Required Certifications*) and contact Exclusive Networks. NFRs are also free.

## 5. How to Use the SentinelOne Brand

Partners can use the SentinelOne logo to add it to their websites and communications to clients. In this [link](#), you can download resources such as the logo, corporate images, and the brand usage guide.
